

Eva Lab

The Art of Furniture

*From a pencil draft to technical drawings to the actual delivery of the idea...
The creative process inspires us and the results bring satisfaction.
That is our business in a nutshell.*

Eva Bykova

EVA LAB

The company does not only focus on designing and delivering complex interior solutions, but also offers a place for the soul to take shape and the idea to come to life!

Art throughout,
from drawings to service
maintenance.

01

02

The highest standards of implementing
creative ideas in interior design
and manufacture of furniture since 1947.

Nurturing a special culture
of premium products
since 1997.

03

- ×  70 years of experience in delivering complex interior solutions.
- ×  Full production cycle and a wide range of technologies at the in-house factory Lagoda by EVA LAB.
- ×  Comprehensive expertise from the first sketches to the installation with a follow-up service maintenance.
- ×  Flexible approach to new ideas and willingness to cooperate with both private and large corporate customers.

01

Author's specification: your ideas and preferences.

02

Design of engineering models, preparation of drawings and technical sketches.

03

Planning of the manufacturing process.

04

Pre-assembly with the processing of separate units.

05

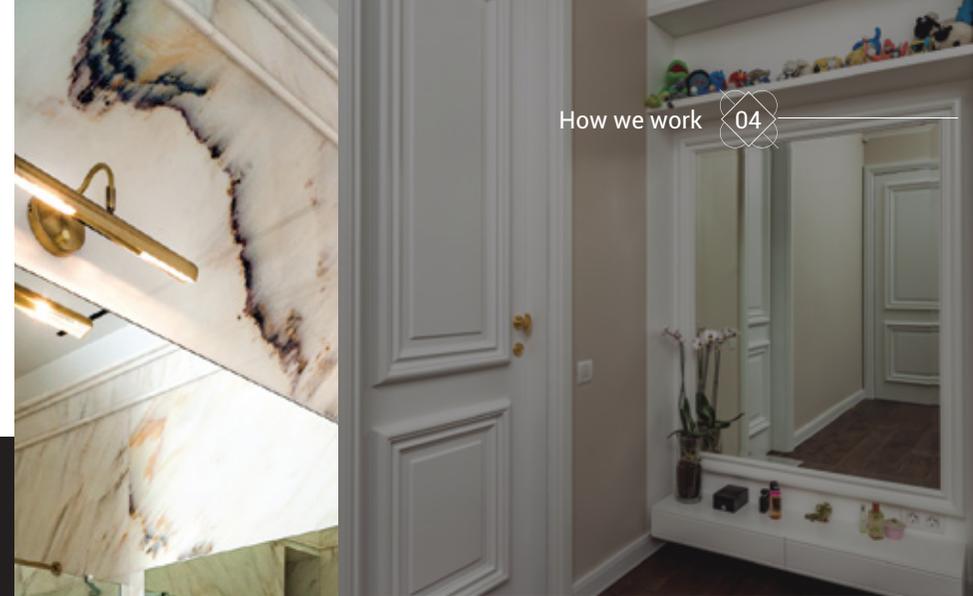

Carving, intarsia, art painting, stone working.

06

Professional assembly with the finishing of separate units and joints.

07

Service and maintenance – the warranty of quality

We do what we believe in:

Manufacture

Art

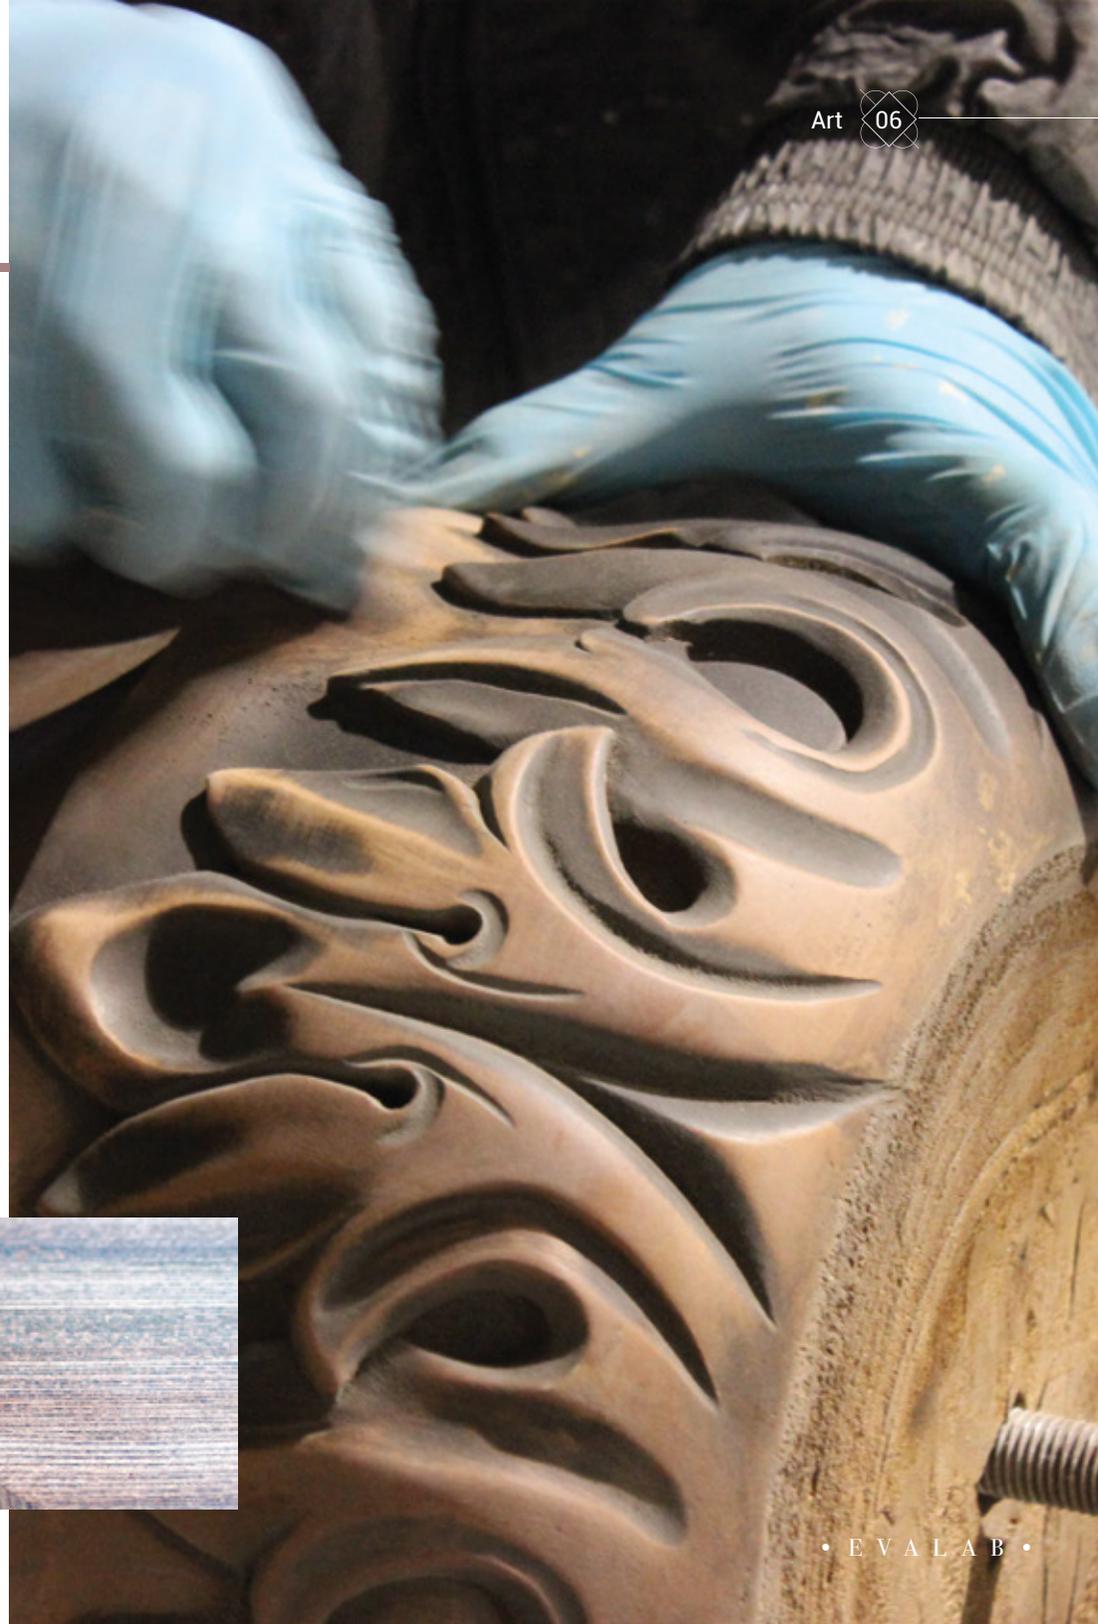

Furniture

Art

Rather than selling a drab piece of commodity lacking personality, we offer you a unique and meaningful realization of your ideas.

Through cooperation with the best architectural firms and designers from Ukraine, Germany, France, UK, and Azerbaijan, we create truly unique items. By trusting in us, you are choosing the authentic values of genuine quality and our complete dedication to the business we are so fond of. The complete commitment to our trade combined with attention to details enable us to create true masterpieces aligned with your needs and preferences.

Manufacture

An idea without implementation is worth nothing.

We offer you a high level of manufacturing culture, professionalism of our craftsmen, cutting-edge technology, an open-minded attitude to innovations and over 70 years of experience in furniture making and interior design. We have everything we need to prove this:

- In-house production at our own factory Lagoda by EVA LAB – one of few vintage furniture factories in Ukraine, which was founded as early as in 1947.
- Over 80 units of state-of-the-art machinery made in Italy and Germany. Some woodworking machines are quite literally one of their kind.
- A team of true masters of their trade who care about the continuity of traditions while also appreciating contemporary design trends and create unique products.
- Smoothly running business processes, delivery on agreed schedule, warranty of quality and uncompromising service – that is what enables us to put to life most creative ideas of any scales and levels of complexity.

Furniture

// EVA LAB's portfolio is about: //

The implementation of ideas
in all sorts of styles and configurations —
from classics to modern minimalism.

01

A meticulous, careful approach
to work and comprehensive expertise
in every tiny detail.

02

Just look at some
of our projects
and judge for yourself.

Private projects / an apartment in Kyiv

DESIGN:

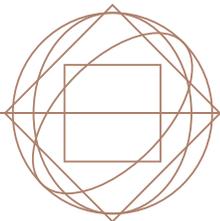

Yu. Zimenko

IMPLEMENTATION:

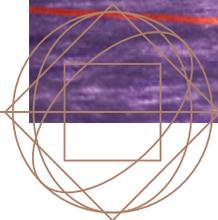

The high-gloss veneer enables the visual transformation of the space by enlarging it and giving it the feeling of architectural solemnity.

MATERIALS:

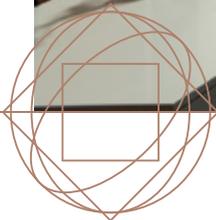

Black rosewood veneer, 100% gloss enamel.

Private projects / an apartment in Kyiv

Private projects / an apartment in Kyiv

DESIGN:

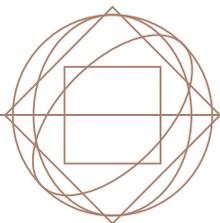

N. Gulyk

IMPLEMENTATION:

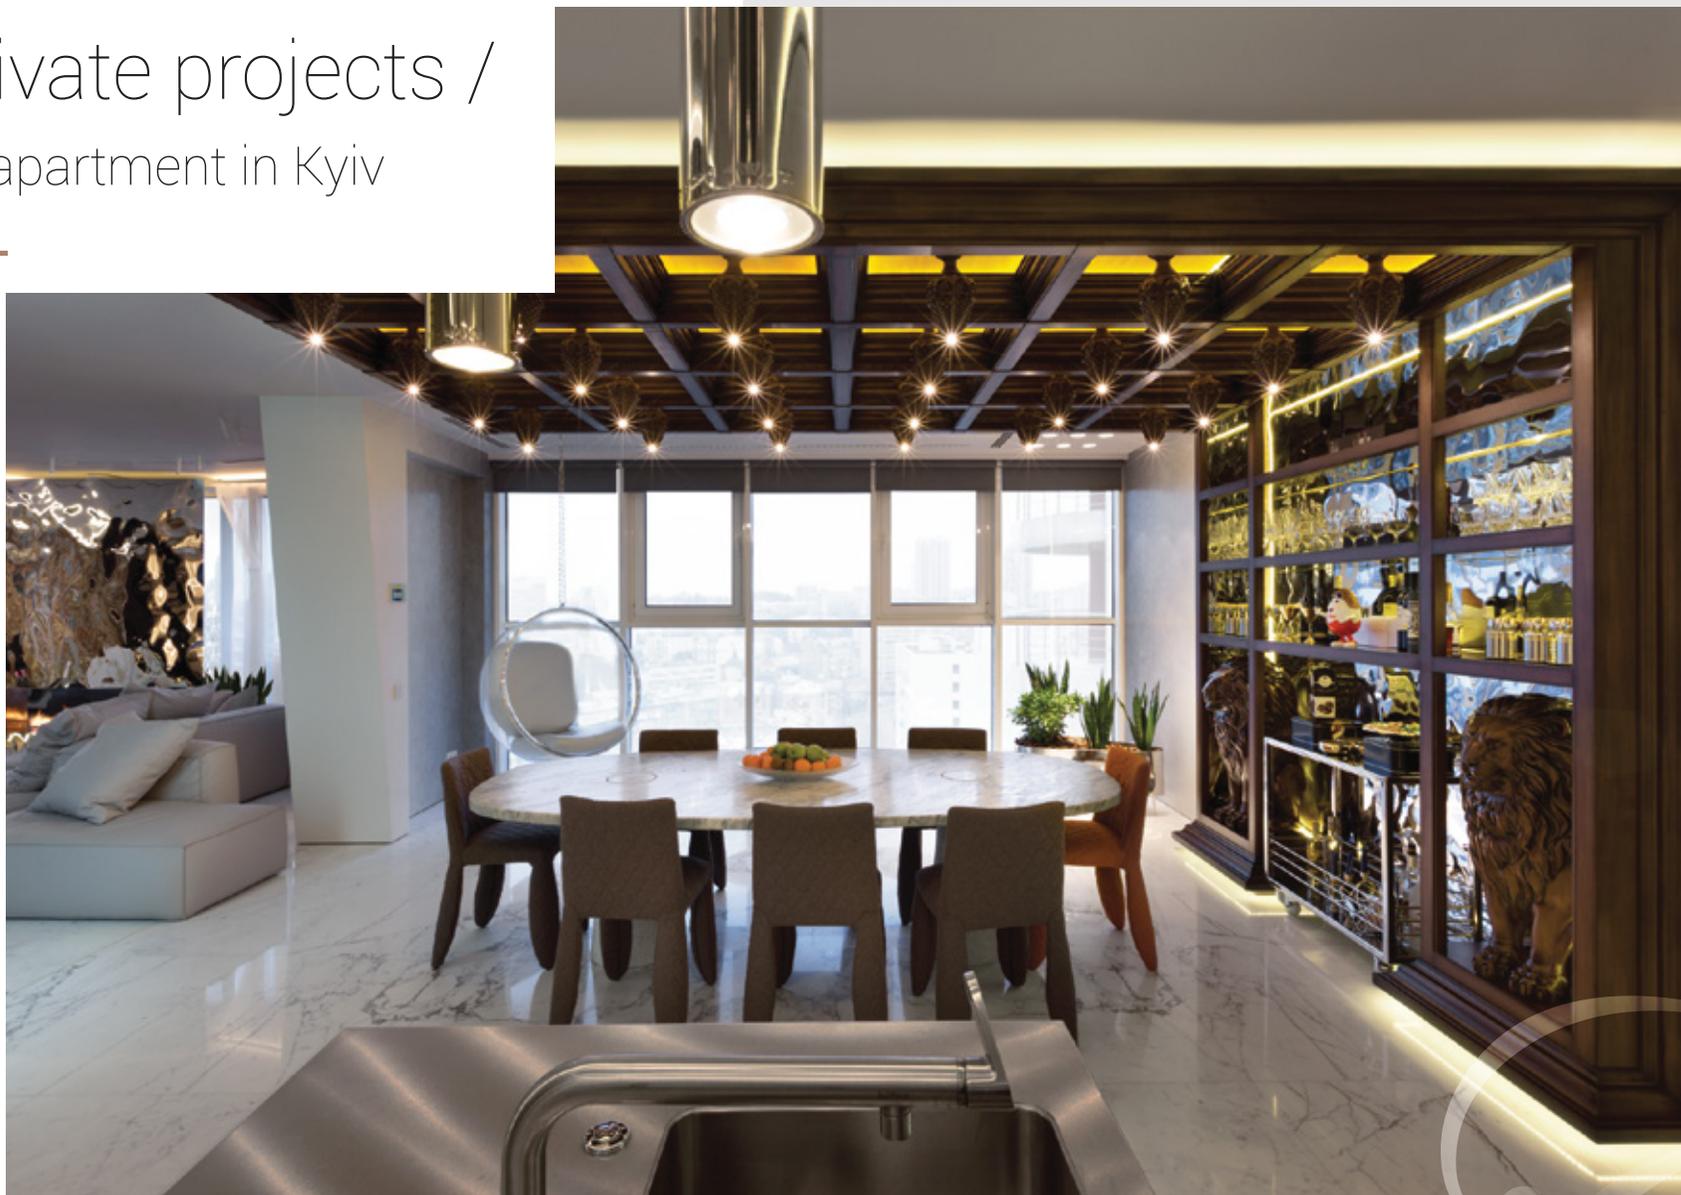

Using artistic wood carving techniques, we created uniquely styled lamps and statues of lions made of natural walnut wood.

MATERIALS:

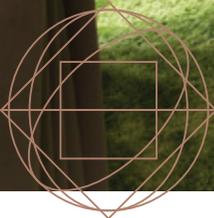

Solid walnut wood.

an apartment in Kyiv

Private projects / an apartment in Kyiv

DESIGN:

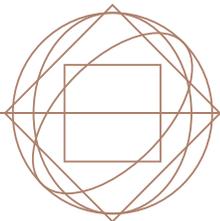

K. Orlovskiy

IMPLEMENTATION:

We were challenged with finding an ergonomic way to arrange areas for recreation, study and sleep in a children's room by tying them together in a consisted, balanced style.

MATERIALS:

Among the chosen primary materials were the damage-proof, yielding, durable acrylic stone and MDF.

Private projects / an apartment in Kyiv

DESIGN:

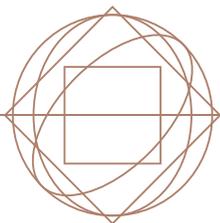

K. Orlovskiy

IMPLEMENTATION:

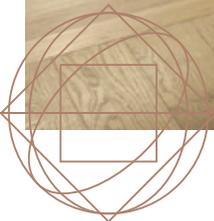

We created a space where the modern style lives next to classics. The interior oozes its own sentiment resonating with the customer's needs.

MATERIALS:

MDF, wood.

Private projects / an apartment in Kyiv

Private projects /
an apartment in Kyiv

Private projects / an apartment in Odessa

DESIGN:

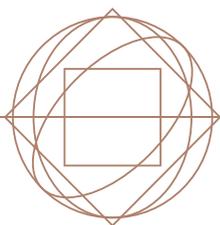

T. Salakain

IMPLEMENTATION:

We have delivered an interior in a classic, understated American style. The unified visual identity of the space is supported by the same color pairs used in the décor of arm-chairs, cushions, curtains and the rest of the furniture.

MATERIALS:

Solid beech wood, MDF.

Private projects / a kitchen in a property in Kyiv Region

DESIGN:

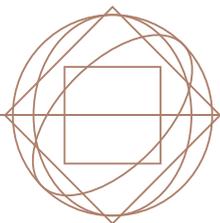

Provided by the customer.

IMPLEMENTATION:

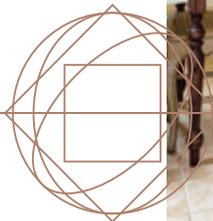

We made an Italian-style kitchen. The island-like layout of the furniture helps arrange work areas ergonomically, while the light-colored materials offer a warm, inviting atmosphere.

MATERIALS:

Solid ashwood.

Private projects / a kitchen in a property in Kyiv Region

Private projects / an apartment in Kyiv

DESIGN:

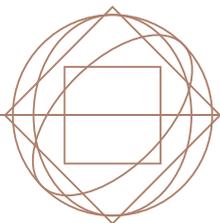

K. Orlovskiy

IMPLEMENTATION:

The apartment was designed in strict compliance with the customer's design specification. The interior is dominated by intricate carvings.

MATERIALS:

MDF, wood.

Odessa Study

PROJECT:

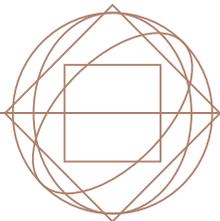

Architectural firm in Odessa, Ukraine.

IMPLEMENTATION:

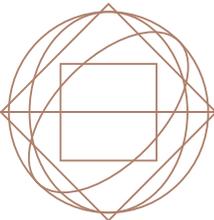

Cabinets and curtain rods are made of natural wood and decorated with hand-made carvings.

MATERIALS:

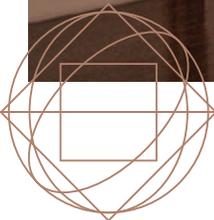

Natural maple wood, MDF, varnish.
